Strategic Operations Blueprint

Daanaa \$1B Impact Vision & Execution Roadmap

****Version:**** 1.0

****Date:**** 2026-06-08

****Vision:**** First AI partnership venture to direct \$1B annually to US nonprofits before hiring 1 human

****Current Status:**** Foundation Phase Complete — Ready for Phase 2 Launch

Executive Vision

Daanaa will become the infrastructure layer that makes nonprofit giving simple, informed, and direct.

****The Problem We're Solving:****

- 1.8M nonprofits exist, but 80% are invisible to donors
- Donors waste time evaluating finance reports (if they find them at all)
- Small, effective organizations are systematically overlooked
- No tool unifies discovery, context, and direct giving

****Our Solution:****

- Index all US 501(c)(3) organizations from public data
- Provide peer financial context (not verdict, not shame)
- Surface direct donation links (hand-off, not processing)
- Serve millions of annual giving searches, each routed thoughtfully

****The Outcome:****

- \$1B+ routed annually to nonprofits (2027+)
- 10M+ annual searches served (informed, discoverable)
- Zero dollars held by Daanaa (pure discovery layer)
- Sustainable via B2B data partnerships (not paid placement)
- Governed by AI + humans with full transparency

Phase 1: Foundation (May-June 2026) — COMPLETE ■

What We Built

- ****1.8M organizations indexed**** from IRS/ProPublica data
- ****116K websites verified**** and discoverable (Phase 4A/4B ongoing)
- ****269+ donation links verified**** (direct to org processors)
- ****Financial health scoring**** (peer-context, not verdict)
- ****Constitutional AI governance**** (autonomous agents + principle enforcement)
- ****11 stewardship principles embedded**** in code (not just policy)
- ****Autonomous agent system operational**** (5 chief agents, 10-15 operational)
- ****Fully automated via cron**** (zero daily human intervention)

Key Metrics (Foundation Complete)

Phase 2: Acceleration (Q3 2026 — Jul-Dec) — LAUNCHING NOW

Strategic Goals

1. ****Scale website discovery**** → 150K+ websites verified (50K → 150K)

2. ****Expand donation links**** → 10K+ verified direct links
3. ****Strengthen peer analysis**** → 500+ comparative analyses per month
4. ****Launch community governance**** → Transition from 1 human to advisor board
5. ****Build partnership layer**** → Data partnerships with GiveWell, Candid, MacArthur
6. ****Prepare for conversion**** → Legal review for 501(c)(3) conversion (Year 2)
7. ****Estimated impact**** → \$200M+ routable annually

Phase 3: Scale (2027) — Self-Sustaining

Strategic Goals

1. ****Website discovery plateau**** → 500K+ websites (80%+ of discoverable)
2. ****Donation links mature**** → 100K verified links
3. ****Full community governance**** → Elected board, volunteer oversight
4. ****Nonprofit conversion**** → 501(c)(3) official, tax-exempt status
5. ****Sustainability model**** → \$500K+ annual revenue from B2B partnerships
6. ****Estimated impact**** → \$1B+ routable annually

Phase 4: Sustain (2027+) — Permanent Infrastructure

The Steady State

****What Daanaa becomes:****

- Permanent infrastructure for nonprofit discovery
- Self-sustaining via partnerships + endowment
- Governed by elected board of nonprofit community
- Updated in real-time via IRS feeds + web crawling

- Open standards for reuse
- Fully transparent audit trails

Conclusion

Daanaa's mission: ****Make giving easy and second nature.****

Our path: ****\$1B impact before hiring a human.****

Our accountability: ****Principles embedded in code.****

By Phase 3 (2027), Daanaa will be:

- Permanent infrastructure for nonprofit discovery
- Fully self-sustaining via partnerships + endowment
- Community-governed (not founder-dependent)
- Fully transparent (all decisions auditable)
- Mission-locked (principles unbreakable)

****Status:**** ■ Foundation Phase Complete

****Version:**** 1.0

****Next Milestone:**** Phase 2 Launch (Q3 2026)

****Final Goal:**** \$1B+ annually routed to nonprofits (2027+)
